

CHARAN VENKAT ANISH TATA

E-mail: charan0457@gmail.com

Mobile: 9533366133

Professional Experience:

Dynamic professional with **11.6+** years of hands-on experience in full-stack application development, enterprise integration, and cross-functional team leadership. Proven expertise in architecting scalable solutions using C# Web APIs, Angular, ASP.NET MVC, and Microservices, delivering high-performance backend systems and responsive frontends for enterprise clients.

Skilled in streamlining business processes through Boomi integration platforms for seamless API orchestration and data synchronization across hybrid environments, and Power Automate (RPA) for automating complex workflows, including unattended desktop flows, OCR-driven document processing, and cloud-based orchestration.

Professional Summary:

- Over 12 years of experience in software development, application delivery, and team management across the complete Software Development Life Cycle (SDLC), including analysis, design, development, testing, deployment, maintenance, and documentation.
- Strong experience in leading cross-functional teams and delivering scalable enterprise applications using Microsoft technologies and cloud platforms.
- Hands-on expertise in application development using C#, ASP.NET MVC, Web API, Angular, ADO.NET, Entity Framework, LINQ, and WCF Services.
- Experience in designing and developing large-scale enterprise applications using N-tier architecture and Microservices-based design patterns.
- Proven experience in end-to-end integrations using Boomi with Amazon S3, Databricks, SFTP, REST APIs, and third-party systems.
- Worked on and led teams in Automation (RPA) initiatives using Microsoft Power Automate for enterprise applications to generate reports from AWS and update reporting solutions on Amazon cloud platforms.
- Successfully managed and completed performance appraisals for a team of ~10 direct reports, providing constructive feedback, performance evaluation, career guidance, and development planning aligned with organizational goals.
- Led cloud-based solution delivery on Microsoft Azure, including API integrations, CI/CD automation, monitoring, deployment, and cloud operations.
- Strong experience in SQL Server development, including writing Stored Procedures, Functions, Queries, and performance optimization.
- Experience working with IIS configuration, deployment management, and application hosting.
- Worked on Proof of Concepts (POCs) for implementing batch processing services using Hang fire.

- Strong understanding and practical experience in Agile/SCRUM methodologies, Agile principles, sprint planning, and delivery management.
- Played a key role in requirement analysis, effort estimation, solution design, and delivery planning for business-critical applications.
- Excellent code review, troubleshooting, debugging, and problem-solving skills with focus on quality and performance optimization.
- Ability to quickly learn and adapt to new technologies, tools, and business domains.
- Strong leadership, communication, interpersonal, and stakeholder management skills with proven ability to work effectively in both team-oriented and independent environments.
- Self-motivated and result-oriented professional with strong organizational, mentoring, and team collaboration capabilities.

Education Profile:

- Bachelor of Technology (B.Tech) from JNTUK University in 2014.
- Intermediate from Board of Intermediate Andhra Pradesh in 2010.
- SSC from Board of Secondary Education Andhra Pradesh in 2008.

Technical Skill Set:

Programming Languages	-	C#
Frame works	-	.Net Framework, .Net Core.
Web Technologies	-	ASP.NET Web API, MVC, WCF, REST, Angular, TS, JS, Html, CSS
Database	-	SQL Server
Unit Testing and Code Analysis	-	Xunit, sonarqube
Automation Testing	-	Unit Testing with xunit using moq
Authentication	-	Identity Server, Jwt
Source Controls	-	VSTS, TFS, Vault, Git
XML Related Technologies	-	XML, SOAPUI, WSDL
Application Server	-	Internet Information Server
Methodologies	-	Agile, Waterfall.

Work Experience:

Currently working as Manager at Neovance – Bangalore Based (Remote).

Domain Experience:

- Currently Working in Health care and life sciences.
- Worked in Insurance Domain, BFSI.
- Worked on Enterprise Resource Planning and CRM Application.
- Worked in Student Loan Management System.

Professional Experience

2014 – tilldate

- Working as Manager at Neovance (Covance – LabCorp (Fortrea)) – 25th Jan 2021 – till Date
- Worked at Cognizant as Senior Associate – 8th Apr 2020 to 22nd Jan 2021.
- Worked at Deloitte USI as Consultant – 19th Feb 2018 to 6th Apr 2020.
- Worked at HCL Technologies as Software Engineer – 28th Nov 2014 to 29th Jan 2018.

Responsibilities & Challenges:

- Lead and worked on eService site development using Angular and web API C#.
- Designed and developed the complete **Micro Service module Unit of work repository**.
- Developed **RESTful API** with authentication using Web API and JWT.
- Integrated different Modules into one website and developed application using Domain Driven Design Principles.
- Proven experience in end-to-end integrations using Boomi.
- Automated entire reporting using Power Automate for daily report generation.
- Managed Azure cloud integrations, CI/CD automation, monitoring, deployment, and cloud operations.
- Conducting performance appraisals and provided mentorship for ~10 direct reporting team members, supporting career growth and delivery excellence.
- Worked on integration projects and Adhoc Change Requests for performance enhancement.
- Written **Stored Procedures** in SQL Server.
- Performed **Unit testing**, Integration **Testing**, Bug fixing and documenting.
- Integrated **Application Insights** into the Project for Health Monitoring for Prod Environments.
- Worked on file transfers using **sFTP, and ftp Connection, Swagger**.
- Used TFS as a Source control and for Issue Tracking purpose.
- Worked on couple of integration and eservice portals.
- Worked on integrating the services with Angular
- Involved in the Build and Release activities.
- Used TFS for Source control.

Achievements:

- Successfully managed critical production support activities independently, ensuring high system availability, quick issue resolution, and seamless business operations while earning client appreciation for exceptional ownership and delivery.
- Led successful modernization and migration of legacy applications to scalable modern architectures with zero business disruption, receiving Applause and Spot Awards for delivery excellence.
- Recognized as Sprint Champion across multiple Agile sprints for consistently driving timely delivery, proactive problem-solving, and high-quality team execution.

- Led critical Boomi integration initiatives that reduced manual intervention, improved data accuracy, and enabled faster real-time integrations across enterprise systems.
- Recognized for resolving complex production integration challenges and optimizing Boomi processes to enhance system stability, monitoring, and performance.
- Successfully implemented enterprise Automation (RPA) solutions using Microsoft Power Automate to streamline workflows, reporting, approvals, and data synchronization, significantly reducing manual effort and turnaround time.
- Delivered scalable automation solutions using Power Automate integrated with enterprise applications, APIs, email workflows, and cloud platforms to improve process efficiency and governance.

Personal Information:

DOB : 14-09-1992
Father Name : Ram Prasad Tata
Marital Status : Married
Address for Communication : Nallagandla, Hyderabad.
